Notes

Access tiers: this edition is 100% PUBLIC-source (open web). Genuinely private feeds — Bloomberg terminal, gated broker research, paid newsletters — require access credentials; when supplied they will be added and tagged 'private'. Roadmap to a full 100: the automated weekly engine (voice100.py, web_search) widens named-individual coverage per category each Friday; regional (India/Asia) depth grows via targeted queries. Model knowledge is not a source here — every view is live-sourced from the stated week.
